25X1A

[REDACTED] the Latvian fac-
 tory 'Standdomostroy' (Standard Housing Production) received an order on [REDACTED] 25X1A
 [REDACTED] from Novosibirsk to build 50 pontoon bridges. According to a previous
 schedule, 'Standdomostroy' was supposed to work on building houses for 'Volgostroy'
 (Volga canals) till the end of November, 1952.

2. "At the same time another Riga factory, 'Glavlesazapchast' (Central Plant for Forest Equipment), which has been engaged in producing electrical motors and electric stations for sawmills, was also shifted [REDACTED] to production of high 25X1A tension electric field stations 'VCE' (Vysokotchastnye Elektrotatsii).
3. "Both products are being loaded on Soviet ships in Riga which are sailing to Lenin-grad. This new equipment is being sent to Novosibirsk, the central receiving point. The final destination is not known."
